

3/5/21

To Whom it may concern:

JWR, Inc out of Johnson Creek, WI has been doing business with Consolidated Waste Systems in Florida for several years. Consolidated Waste Systems serves as a sub-contracted service vendor for JWR for several of our national accounts.

Consolidated performs emergency service for us as well as executes our planned maintenance program in the Florida area. Their service techs are very thorough and detailed, and the dispatchers have a timely response.

I would recommend Consolidated Waste to execute service and/or planned maintenance programs. They do a great job for JWR.

Sincerely,

Cory Gardner
National Account Manager
